Engines

Dear Folks,

I arrived in San Bruno, which is just outside Frisco last wed night. I have had an overseas address and have been receiving sea pay since the 14th. We are going to I. court island next

Tues at 1500 and I imagine we won't be there over 48 hrs. we have received more gear including mess kits, mosquito nets, cots, and all kinds of green Marine special clothing, am going to call you this afternoon and this letter will probably be my last for quite a while.

I have seen several people I know here including 3 boys who were I. reenmen with me at Rio and are now in the Navy. I also saw Ensigns Nick Nichols, Glenn Brian and Johnny Andrews who I and Groves Moore know I know at Rio. I also saw Bill Mami last night and had a long talk with him and found out he is married.

I saw a boy who was on Harold's green's ship and was a friend of his

I guess that's all for now

Frank

P.S. You will notice A.P.O. instead of
F.P.O. This is because we are
attached to the 10th Army

Frank
