Naha, Okinawa

Dear Folks,

I guess it's about time I got on the ball with my writing, so here goes another attempt at letter writing. I have been receiving mail from you regularly, nearly every day and I also have been getting some April Records. I really appreciate mail now more than I ever have before in my life.

Well as you can see I am now back in college. I am taking a short course in summer school of Military Government at the University of Naha. We moved in today. The building is really swell after living in a tent although it's shelled up a bit. It's one of the few buildings left standing in Naha, capital of Okinawa.

I was really happy to hear about Joe E. getting in V-5. I am going to send in my application again although I doubt if it will do any good. You might see if Mr. Lyb can help me out.

Love Frank
