Mr. Myron Bass +
Mrs. Ilda Thomson
906 Morgan Ave.
Cuero, Texas

written Wed. June 27 + Fri. June 29

June 27, 1946

Dear folks,

Well as you can see I have gained another destination and have moved again. I left B-101x to go to Dist. 2 cam D-5 where I spent two days and saw some old buddies of mine.

I am now attached to Military government Hq. headquarters at Island Command. I don't know yet what my duties will be as I just arrived here today.

This is the Hq. headquarters for all M. G. Units on Okinawa.

Censorship regulations are now stiffer because I am now under Navy jurisdiction rather than the Marines as I was before.

The weather is fine and has been for a good time now and as we are close to a good beach I hope to go swimming tonight.

I have gained several pounds and it's mostly muscles instead of fat I noticed several of my friends look as though they've put on weight also. This climate seems to agree with everyone.

I am now pretty safe and secure. The island was officially secured a few days ago although there are a few ships left.

I can't understand what happened to the mail
this been writing you because I've written
you regularly. I have been receiving
letters from you regularly but I
haven't had any "Records" lately and
I haven't received any of your
packages yet. I guess they will
come through one of these years.

I will have a better chance of putting
in my request for V-5 now that
I'm at cls Com. as I will be
right at the place it will have
to go through. They are pretty
busy here now though getting set up
and there are lots of men over 4-2
getting discharges.

June 29, 1945

Well it's been two days since I started
this letter but I still don't have
anything of interest to tell you.

I am assigned to Headquarters
Commandant and my job is to supervise
"gooks" I have some gook boys here
from about 12 to 16 and they are pretty
intelligent. quite a few speak a few words
of English and have learned to count in
English.

I have the day off today and I'm
going for a swim on a very good beach
they have here

Love Frank
