The Ryukyus

Dear Folks,

I received two packages from you yesterday making a total of three, altogether. One had all newspapers and one had a pipe and candy and pecans and newspapers. All of the packages have arrived in excellent condition. I really enjoyed the home made candy with pecans in it and also the pecans. They were really good. I also am enjoying the pipe and like it very much. and of course I enjoyed reading the papers also.

I hear not much news here except that the Army is taking over Military Government here and some or later all May personnel are to be transferred, where they are to be transferred isn't known

Love from G
